No progress could be made in the disposal of applications for land from Political sufferers in this district because as already stated in my progress report Pdl.766/48 dated 3-7-48 for the month of June 1948, most of the applications were defective and the required particulars were not given. The applications had to be returned or further correspondence carried on with the applicants to get their particulars. The applicants are usually taking much time in furnishing the details of the lands required and in many cases there has been no response at all. Even where they have furnished the details the lands applied for will be such as cannot be granted, porambokes etc., and this will necessitate further correspondence. At a meeting of the non-official advosory committee held on 7-5-48 the committee members suggested that a list of vacant lands available for assignment could be drawn up and made available to the applicants to enable them to choose the lands they require. This was a stupendous task as the list will be voluminous and yet with great effort this is being done and completed in some taluks. The committee members also opined that they would start colonies for cooperative cultivation if suitable lands are available. Stringent instructions were issued to the subordinates and the village officers to give all the necessary information to the intending applicants and yet there is a general complaint that they find it difficult to select the lands they require. The reason is that though there are large tracts of assessed waste lands in this district almost all the good vacant lands are reserved for specific communal purposes or are poramboke lands. The next best lands are kumaki lands which can be assigned only to Kumakidars. The rest of the lands are mostly inferior class lands or hill-topes. Good lands will be very few. The village officers who have vested interests in their villages or other villages would not easily give information of these good lands to the Political Sufferers who are mostly town-dwellers and strangers to the villagers. The regular staff of revenue inspectors have their hands full now owing to the reopening of many items of work suspended during war time and consequent congestion. Besides there are large number of kumaki assignment cases in this district.

2; So far 187 applications in which details of lands required were furnished have been referred to tahsildars and deputy tahsildars as shown below.

Besides there are about 200 applications received and registered in which details have not been furnished. A special staff to attend to these applications is quite necessary for the prompt disposal. I request that sanction of the Government may kindly be obtained for appointing temporarily for a period of six months two revenue inspectors (L.D.Cs) for Mangalore taluk (including Bantwal subtaluk) one for Kasaragod taluk and one for Hosdrug sub taluk and one each for the taluks of Udipi, Karkal and Coondapur. These revenue inspectors will tour round the villages, gather information about the suitable lands fit for assignment, give the information to the applicants and make the karnams deal with the applications promptly.

3. The correspondence relating to nearly 400 applications in my office is enormous and it is quite impossible for the regular staff to cope with it. The applications have to be handled promptly and diligently. A separate clerk to deal with these applications in my office is quite necessary. I therefore request that the sanction of Government may be obtained for the appointment of one upper division clerk in my office temporarily for a period of six months. At a later stage when the applications are received back after enquiry, one more clerk may be required for my office for a short period which I shall apply separately. In the taluk offices and the revenue divisional officers' offices also temporary clerks for short periods may be necessary at a later stage.

4. I request that immediate steps may kindly be taken to the above staff sanctioned.
